

Dodge Brothers Club Self-Inspection Safety Checklist

1. Download and save this this pdf.
2. Complete these following inspections.
3. Check each box.
4. Save the completed pdf.
5. Email to dodgebrothersclub@yahoo.com or mail/give to Barry Cogan. Thank you!

	Accessible working ABC or BC fire extinguisher
	Safety glass all around
	Brake lights, running lights, tail lights and horn all functioning properly
	Brakes and linings are all in good condition
	Tires and spare tire in good condition – check for uneven wear and sidewall cracks
	Front wheels, wheel bearings, kingpins, tie rods in good condition with acceptable play
	Rear wheels in good condition
	Wood spoke wheels – check for loose spokes
	Minimal steering gear free play
	Fuel system and carburetor in good working order – no leaks
	Check fluid levels – engine oil, transmission & differential oil, coolant, steering gear case, brake fluid (if equipped)
	Check emergency/parking brake – adjust if necessary
	Check fan belt and radiator hoses – recommend carry spares
	Test drive – suggest at least 20 miles
	Gas tank FULL and ready to roll!
